INFRINGEMENT & VALIDITY, FD4 RESITTER COURSE

Location:

Milton Keynes

Tutor:

Phlip Barnes (IP Asset Partnership)

Features of this course

Ahead of the course, you will be asked to send/email in a copy of the script from the most recent FD4 exam you took. This will enable the tutor to provide personalised feedback, identifying areas you need to concentrate on to boost your marks.

You will also be asked to answer a specified past paper and this will be marked, with feedback by the tutor.

During the course, the tutor will set out, through a presentation, guidance on how to approach the FD4 paper, maximise performance and insights into what the examiner is looking for in a 'pass' answer.

There will then follow FD4 practice and you will be asked after the course to answer another past paper. Phil will mark and provide you with personalised feedback on this answer.

This will enable you, and the tutor, to identify progress in your effectiveness in answering FD4 and help identify areas to concentrate on during the remaining weeks of practice ahead of the exam.

The course is supported also by our online Moodle resources and discussion forum.

About the tutor:

Phil has had experience as a P6/FD4 examiner and has presented FD4 courses for JDD since 2015.
