## Dates for our 2019 courses

We are holding our Foundation Certificate (FC) courses for the 2019 Patent Examination Board (PEB) exams between 26 June and 6 July. The intention is to allow attendees three months to build on and consolidate their learning during the courses, ahead of the exams in October 2019. Course dates are set out overleaf.

### Changes for 2019

We have retained the same FC tutors as for the PEB 2018 courses, with the exception of FC1 where Ivor Harrison has retired and is being replaced by Jack Gunning.

The courses are supported again by an online Moodle resources and discussion forum. The resources forum will 'go live' in early March. It will be seeded initially with material from previous years' courses and other relevant material. As we move forward, new material will be added.

The forum also provides a mechanism for attendees to support colleagues, raise queries and share knowledge relevant to the papers with other attendees - particularly after the face-to-face courses. So we encourage attendees to be active users of and posters on the forum.

*"One of the best JDD courses I've attended—very well presented, very useful course notes".*

*- FC3*

*"Sharon was very good and explained the key issues in an easily digestible manner".*

## Course features

Each course includes extensive materials on the key parts of the syllabus.

These notes are discussed and explained by the tutors during the face-to-face days of the course.

Also, during the face-to-face course, there is practice of exam questions, with feedback from the tutors.

In the case of FC1, you will be asked to submit answers to questions ahead of the course and the tutors will provide feedback during the course.

Before and after the courses, you will be connected with other course members through an online Moodle resources and discussion forum.

*“Very well presented, the content was well pitched and the notes are really useful.”*
