Dates for our 2020 courses

We are holding our Foundation Certificate (FC) courses for the 2020 Patent Examination Board (PEB) exams between 19 June and 11 July. The intention is to allow attendees three months to build on and consolidate their learning during the courses, ahead of the exams in October 2020. Course dates are set out overleaf.

Changes for 2020

We have retained the same FC tutors as for the PEB 2019 courses, but the tutors are revising the FC1 course format so that a higher proportion of the course time is devoted to tutors' presentations and guidance on key topics (supported by handout notes).

The courses are supported by an online Moodle resources and discussion forum, which 'goes live' in March. It includes material from earlier courses and other relevant material, with new material being added ahead of and after the courses.

The forum provides a mechanism for attendees to raise queries and share knowledge - particularly after the face-to-face courses. So we encourage attendees to be active users of and posters on the forum.

*"Excellent material
brilliantly delivered"*

- FC3

*"Sharon was a good
tutor. Great coverage
of case law and past
paper questions.*

*Good incorporation of
law extracts with
notes"*

Course features

Each course includes extensive materials on the key parts of the syllabus. These will be supplied during the courses—and in some cases just ahead.

These notes are discussed and explained by the tutors during the face-to-face days of the course.

Also, during the face-to-face course, there is practice of exam questions, with feedback from the tutors and guidance on what to include in answers.

Before and after the courses, you will be connected with other course members through an online Moodle resources and discussion forum.

“Excellent content, particularly quality of notes. Brilliant delivery from tutors.”
