

## INTRODUCTION TO FD4 1 DAY COURSE

### **Location:**

Milton Keynes, 10am to 5pm

### **Tutors:**

Chris Mercer (Chris Mercer Consulting Ltd.)

### **Purpose and content of the course**

This Introductory/Primer FD4 course is geared in particular towards those taking FD4 for the first time.

The tutor will set out a recommended approach for tackling the FD4 paper: covering reading the question and materials, identifying the issues and preparing your answer.

After the course, you will be asked to answer a specified past paper and the tutor will review your answer and provide feedback.

It is intended that you take this course in conjunction with one of the later 1.8 day FD4 courses as the course will provide guidance on work to do ahead of these courses, including practising of past papers.

By attending this course, you will be much better prepared to get as much as possible out your past paper practice and from the July/August 1.8 day FD4 courses.

### **About the tutor:**

Chris Mercer is an experienced FD4 tutor who has been delivering revision training courses for JDD on FD4/P6 for many years.
